

PISCES INTELLIGENCE

Minority-Owned Software Engineering & Data Intelligence | Capability Statement

Pisces Intelligence is a minority-owned software company that brings healthcare-grade engineering discipline to software touching critical systems — patient data, financial records, and core operations. We design, build, and maintain custom software and data platforms with security and compliance built in from the start, serving health systems, payers, prime contractors, and civilian/health-adjacent federal agencies.

CORE COMPETENCIES

- Custom Software Development — web platforms, internal tools, product builds
- Data Science & AI/ML — pipelines, predictive modeling, AI-powered features
- Healthcare Technology Solutions — privacy-minded, interoperability-aware systems
- DevSecOps — CI/CD, infrastructure as code, automated security scanning
- Software Testing & QA — automated and manual, performance and security testing
- Software Maintenance & Support — modernization, monitoring, incident response
- Contract & Team Augmentation — embedded engineers or independent delivery

DIFFERENTIATORS

- Engineering discipline modeled on healthcare-grade precision, applied to every project
- Security and compliance designed in from day one, not added before launch
- Senior, small-team delivery model — direct access, fewer handoffs
- Full lifecycle partner: discovery through long-term maintenance and support

COMPLIANCE & PUBLIC SECTOR FOCUS

- HIPAA-informed privacy and security practices for sensitive health data
- Civilian agency and health-adjacent (VA/HHS-adjacent) technology systems
- NIST 800-53 / 800-171-informed security architecture
- Section 508-minded accessibility; FISMA-aware documentation practices
- Open to prime, subcontract, and teaming arrangements
